REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

With regards to claim 1, the prior art fails to teach or suggest applicant's recited rigid container comprising an oxygen indicator comprising a luminescent compound wherein the oxygen indicator comprises all or part of a printed image.

The examiner agrees with applicant's arguments presented in the response of 5/25/07 in that Putnam teaches away from any process using printed or painted sensors and thus motivation to combine all three references Speer, Putnam and Inoue to arrive at applicant's claimed invention is lacking.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
